Goal

When it comes to times tables, speed AND accuracy are important – the more facts your child remembers, the easier it is for them to do more challenging calculations.

Times Table Rock Stars is a fun and challenging programme designed to help students master the times tables!

To be a Times Table Rock Star you need to answer any multiplication fact up to 12×12 in less than 3 seconds.

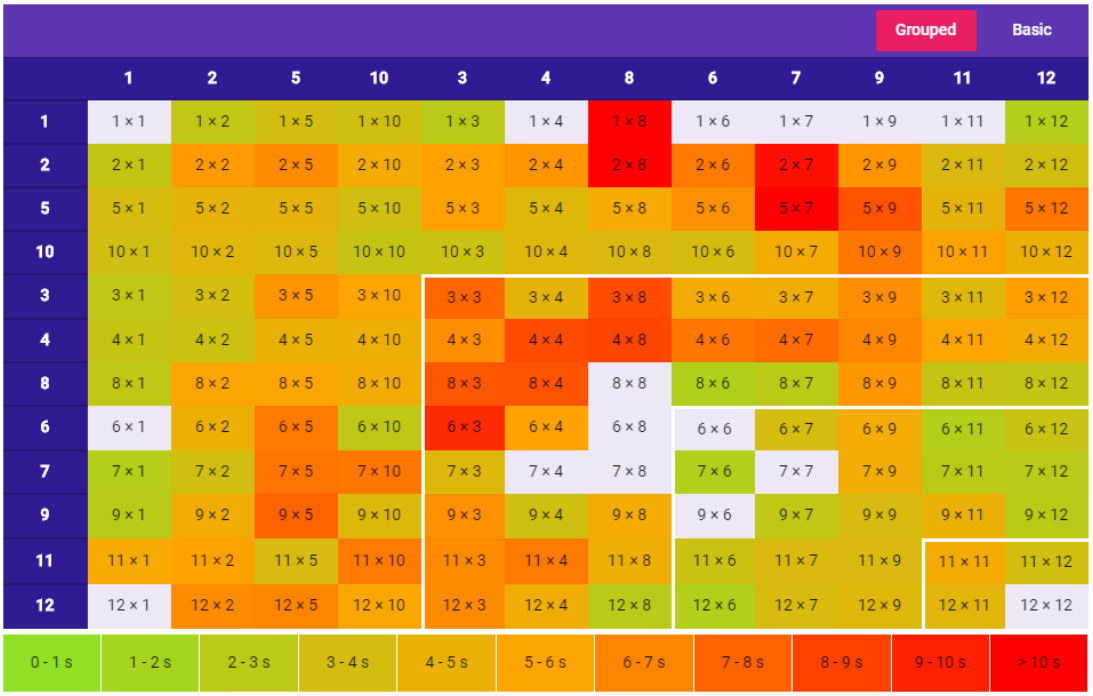
Stats

If you click on your avatar icon in the top right of the screen and then click My Stats, a heatmap like the one below will load. It shows how successful your child is at each of the facts.



During our Times Table Rockstars launch day today, your child will have logged onto the website and completed their 'Gig' assessment. This will have identified which times tables they're really confident with, as well as the times tables where their skills need to be developed further. The website automatically uses an algorithm to then provide times table questions to develop your child's fluency and skills with those key times tables. Your child's teacher may also allocate certain times tables to your child, based on which are being focused on in class. As stated above, these can be practised in the 'Garage' section.
