

MULLION C. P. SCHOOL

We are currently reviewing our behaviour policy. Once agreed by the governing body it will be published on the school website.

We take our role in supporting and challenging pupils very seriously and talk to them frequently in class, assemblies and individually about our expectations

How we talk to children about behaviour is vital. It is important that we are clear about what is acceptable behaviour, and importantly whom they should speak to if they are unhappy or feel that they are being treated unfairly.

When talking to pupils we often ask

What happened?

When it happened

Who was involved?

How many times this has happened

What length of time this has been happening for.

In talking specifically about bullying, we use the following definition

It is on purpose

It has happened more than once

It is designed to hurt either emotionally or physically

The children at our school are caring and thoughtful of others and we see many positive examples of this each day - Opening doors for each other, supporting each other in their work, cheering at sports day, sharing equipment. We are proud of our happy and caring school. We are also aware that at times friendships do go wrong and understand that pupils will need support in creating positive relationships.

If you are concerned about your child please contact the school and we will do everything we can to ensure that your child is happy in school. We will endeavour contact you as soon as possible after any incidence of behaviour that may have upset and directly affects your child.
