## Make an origami hopping frog

Use the instructions below to help you.

## Watch this amazing short video!

<https://www.youtube.com/watch?v=gmlaclb3K2o>

You could create a diary to show what happens on each day or you could use play dough or plasticine to make models of the stages as the tadpole grow.

Create a fact sheet or poster about frogs. Use the fact below and research some of your own.

Frogs have ears! Males have bigger ears than the females and they can be found behind the eyes.

Frogs 'drink' through their skin!

Frogs are cold blooded and hibernate in Winter.

Frogs are Amphibians.

## Frogs all over the world!

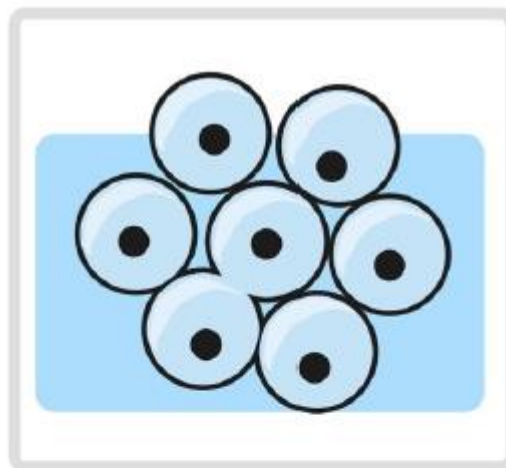

There are many different species of frogs. They can be found in most climates around the world except for Antarctica.

Here are some frogs that you could research: Darwin's frog, Goliath frog, Tree frog and the Poison Dart frog.

What is unique about these frogs?

Can you research any more of frogs from around the world?
